SKILLS

Backend Development: *Node.js, Express.js, graphQL*
Database Management: *MongoDB, MySQL, Sequelize ORM*
API Development & Integration: *RESTful APIs, third-party API integration*
Authentication & Security: *JWT, OAuth, bcrypt, role-based access control*
Version Control: *Git, GitHub*
Containerization & Deployment: *Docker, Docker Compose, NGINX*
Cloud & Hosting: *AWS (basic), Vercel, Render*
CI/CD: *GitHub Actions (basic understanding)*
Error Handling & Debugging: *Postman, Chrome DevTools, logging*
Dev Tools: *VS Code, Postman*

WORK EXPERIENCE

White orange software

NodeJS backend developer   Sep 2022 - Apr 2025

- *Experienced IT Developer skilled in designing, developing, and maintaining scalable web applications.*
- *Proficient in backend development, API integration, database management, and troubleshooting.*
- *Adept at creating efficient solutions that align with business goals and user needs.*

EDUCATION

Pacific School of Engineering

BACHELOR OF ENGINEERING (Computer) - 7.56   2019 - 2023

L.D. High School

12 SCIENCE - 64   2018 - 2019

Iqraa High School

10 th - 63   2017 - 2018

PROJECTS

Pronto : Typescript | Postgres | Swagger | Sentry | Stripe
- Designed and implemented the **backend** for an **online barber shop platform** with **role-based access** for **owners** and **freelancers**.
- Developed a **time-based booking system** featuring **live queue management** and **appointment scheduling**.
- Built scalable **RESTful APIs** for **user management**, **shop operations**, and **service customization**, ensuring seamless **functionality** and **scalability**.

Hook : Typescript | MongoDB | Swagger | Redis | Sentry
- Developed a real-time features like like/dislike, block, and pin.
- Implemented secure user authentication and **one-to-one** chat using **socket io.**
- Integrated real-time **push notifications** for **matches, messages,** and **interactions**.

EducationHub : Javascript | MySQL | Swagger | Sentry ↗
- Designed and developed the **backend** for an **online quiz and school management system** with **role-based access** for **Admins**, **Schools**, **Teachers**, and **Students**.
- Implemented features for **school management**, **city-based performance monitoring**, **quiz creation**, **scheduling**, and **result tracking**.
- Built scalable and efficient **RESTful APIs** for seamless **data communication**, ensuring robust **data handling** and platform **scalability**.

Ilonsi : Javascript | MySQL | Swagger | Sentry | Stripe | Gigapay ↗
- Developed the **backend** for a platform connecting **brands with influencers** to promote products and services.
- Implemented **role-based access control (RBAC)**, enabling brands to set **public/private visibility** for products and services.
- Integrated **Stripe** for secure **brand subscription payments** and **Gigapay** for **influencer payouts**, ensuring **tax compliance in Sweden**.
- Built scalable **RESTful APIs** for **affiliate link generation**, **shop management**, and **earnings tracking**, enabling seamless **collaboration and monetization** between brands and influencers.

Regionbox-store: NextJS | Redux & toolkit | Stripe ↗
- Integrated **Redux** for global state management (cart, user authentication, and design selections).
- Built and connected **REST APIs** for product data, user sessions, and order handling.
- Integrated **Stripe React Elements** for secure, real-time **payment processing** during checkout.
