WORK EXPERIENCE

Webforest LLP
PERN Stack Developer — Aug 2025 - Oct 2026

Xvantage Infotech
Freelance Full-Stack Developer — Mar 2025 - Jul 2025

White Orange Software
Node.js Backend Developer — Sep 2022 - Mar 2025

EDUCATION

Pacific School of Engineering
Bachelor of Engineering (Computer) - 7.56 — 2019 - 2023

L.D. High School
12th Science - 64% — 2018 - 2019

Iqraa High School
10th - 63% — 2017 - 2018

SKILLS

Backend Development: Node.js, Express.js, GraphQL
Database Management: MongoDB, MySQL, Sequelize ORM
API Development & Integration: RESTful APIs, Third-Party API Integration
Authentication & Security: JWT, OAuth, bcrypt, Role-Based Access Control
Version Control: Git, GitHub
Containerization & Deployment: Docker, Docker Compose, NGINX
Cloud & Hosting: AWS (Basic), Vercel, Render
CI/CD: GitHub Actions (Basic Understanding)
Error Handling & Debugging: Postman, Chrome DevTools, Logging
Development Tools: VS Code, Postman

PROJECTS

Almond Stay: Node.js | Next.js | PostgreSQL | Razorpay | WhatsApp API | Firebase Notifications Fab 2026
- Developed a full-featured **farmhouse and villa booking platform** with property search, availability, and flexible booking options.
- Integrated **online payment gateways, dynamic pricing, and booking management** for a seamless reservation experience.
- Built a **responsive and user-friendly interface** for guests and property owners.

Telephonez : Node.js | Next.js | PostgreSQL | Stripe Aug 2025 - Jan 25
- Developed a **full-featured e-commerce platform** for buying, selling, and repairing **iPhones and other electronic devices**.
- Implemented **product discovery, device valuation, online ordering, payment processing, repair booking, and order management**.
- Built **responsive frontend interfaces and REST APIs** with **admin workflows** for managing products, customers, orders, trades, and repairs.

Pronto : TypeScript | PostgreSQL | Swagger | Sentry | Stripe

- Designed and implemented the backend for an online barber shop platform with role-based access for owners and freelancers.
- Developed a time-based booking system featuring live queue management and appointment scheduling.
- Built scalable RESTful APIs for user management, shop operations, and service customization, ensuring seamless functionality and scalability.

EducationHub : NodeJs | MySQL | Swagger | Sentry

- Designed and developed the backend for an online quiz and school management system with role-based access for Admins, Schools, Teachers, and Students.
- Implemented features for school management, city-based performance monitoring, quiz creation, scheduling, and result tracking.
- Built scalable and efficient RESTful APIs for seamless data communication, ensuring robust data handling and platform scalability.

Ilonsi : NodeJs | MySQL | Swagger | Sentry | Stripe | Gigapay

- Developed the backend for a platform connecting brands with influencers to promote products and services.
- Implemented role-based access control (RBAC), enabling brands to set public/private visibility for products and services.
- Integrated Stripe for secure brand subscription payments and Gigapay for influencer payouts, ensuring tax compliance in Sweden.
- Built scalable RESTful APIs for affiliate link generation, shop management, and earnings tracking, enabling seamless collaboration and monetization between brands and influencers.

Regionbox-store : NextJS | Redux & Toolkit | Stripe

- Integrated Redux for global state management, including cart, user authentication, and design selections.
- Built and connected REST APIs for product data, user sessions, and order handling.
- Integrated Stripe React Elements for secure, real-time payment processing during checkout.
